+977-9803928254

To work for an organization which provides me the opportunity to improve my skills and knowledge to growth along with the organization objective.

## PROFILE SUMMARY

- B.E in Computer Science and Engineering from Bangalore Technological Institute, Bangalore.
- Ability to express learned concepts clearly to other people.
- Worked on real time project such as Password Manager-Chrome Extension.
- Worked on academic projects Online Bus Ticket Reservation and Online Book Store.
- Adept in database MySQL and Programming Languages C, JAVA and Python
- Conversant with web development technologies such as HTML5, CSS3, Bootstrap4, JavaScript, React js, PHP, etc.

## ACEDMIC PROJECTS

### Major project (8<sup>th</sup> Semester) – Smart Shopping Cart with Product Navigation and Automatic Billing

The fundamental aim of this project is to integrate IOT in the field of shopping in malls and supermarkets. We developed a smart cart along with Hybrid mobile application which provides many features such as automatic billing, product navigation, pre-shopping list, online & offline transaction and so on.

### Mini project (7<sup>th</sup> Semester) – BOOKHOUSE-Online bookstore

I made a dynamic website which contains various books stored in their respected category along with other information such as authors, price, short description and edition. This website has two modules: user module and admin module. User module displays all the book related information and allow user to select and order books. Admin panel provides admin with different facilities to manage books, orders and the users.

### Mini project (5<sup>th</sup> Semester) – Bus Ticket Reservation System

I made a website which allows user to book bus tickets. This website includes features such as seat selection, booking history, bus and route details and so on. This website has two modules: user module and admin module. User module displays various routes and the respective buses on that route for different timings and allows customer to book ticket. Admin panel provides admin with different facilities to manage bus, route, bookings and user.
